ROHIT SHARMA

Data Analyst

Alwar, Rajasthan | +91 9772839588 | rohitsharmakherli7877@gmail.com

PROFESSIONAL SUMMARY

BCA Data Science graduate with a strong analytical foundation in Python, SQL, Excel, and Power BI. Skilled in data cleaning, exploratory data analysis, interactive visualization, and predictive modeling. Seeking an entry-level Data Analyst opportunity to solve complex business problems and deliver actionable, data-driven insights.

TECHNICAL SKILLS

Languages & Libraries:	Python, SQL, Pandas, NumPy, Data Cleaning & Preprocessing
BI & Visualization:	Power BI, Microsoft Excel (Pivot Tables, Advanced Formulas), Data Visualization
Tools & Methods:	Git & GitHub, Exploratory Data Analysis (EDA), Statistical Analysis

PROJECTS & PRACTICAL EXPERIENCE

Stock Market Prediction Project

Academic Project

- Developed a predictive machine learning model in Python to analyze historical stock price movements.
- Processed and cleaned complex datasets using **Pandas** and **NumPy** to handle missing values and feature scaling.
- Built informative visualizations to clearly communicate statistical insights and prediction metrics.

Data Analytics Virtual Simulations

- Completed virtual job simulation programs covering real-world business analytics scenarios.
- Executed end-to-end data tasks including cleaning, modeling, and visualization to support business decisions.

CERTIFICATIONS

- **Forage:** Data Analytics Job Simulation Certificate
- **Forage:** Job Simulation Certificate

EDUCATION

Bachelor of Computer Applications (BCA) - Data Science

2023 – 2026

Apex University

Senior Secondary High School (12th)

2021 – 2023

Naveen Subodh School, Alwar City
